

## **CAMERA MODULE WITH FOCUS ADJUSTMENT STRUCTURE AND SYSTEMS AND METHODS OF MAKING THE SAME**

### **ABSTRACT**

Camera modules with focus adjustment structures and systems and  
5 methods of making the same are described. In one aspect, a sensor housing  
having an image sensor, a lens holder comprising a lens, and a deformable focus  
adjustment structure are provided. The focus adjustment structure is deformed to  
move the lens whereby light is focused onto the image sensor.
